

## automatic entrance doors

**Doorfix Ring-gard** Automatic Entrance Doors offers a wide range of solutions for the automation of personnel entrances. We offer a comprehensive service interacting with the client throughout the specification and installation process. **Doorfix Ring-gard** Automatic Entrance Doors are equipped with the most advanced security & safety control systems guaranteeing optimum operation.

The System operator can be adapted to the needs of each installation. It is prepared for heavy traffic, both in large (supermarkets, hotels, airports, hospitals) and in small and medium buildings (offices, chemist's, restaurants, points of sale in general). Its most important features are its silent movement when opening and closing, dynamic stability and its quick and easy installation.

A high level of technology and quality enables us to achieve a perfect solution both in terms of technical aspects and aesthetics. One of our key principles is to ensure energy efficiency for our clients.

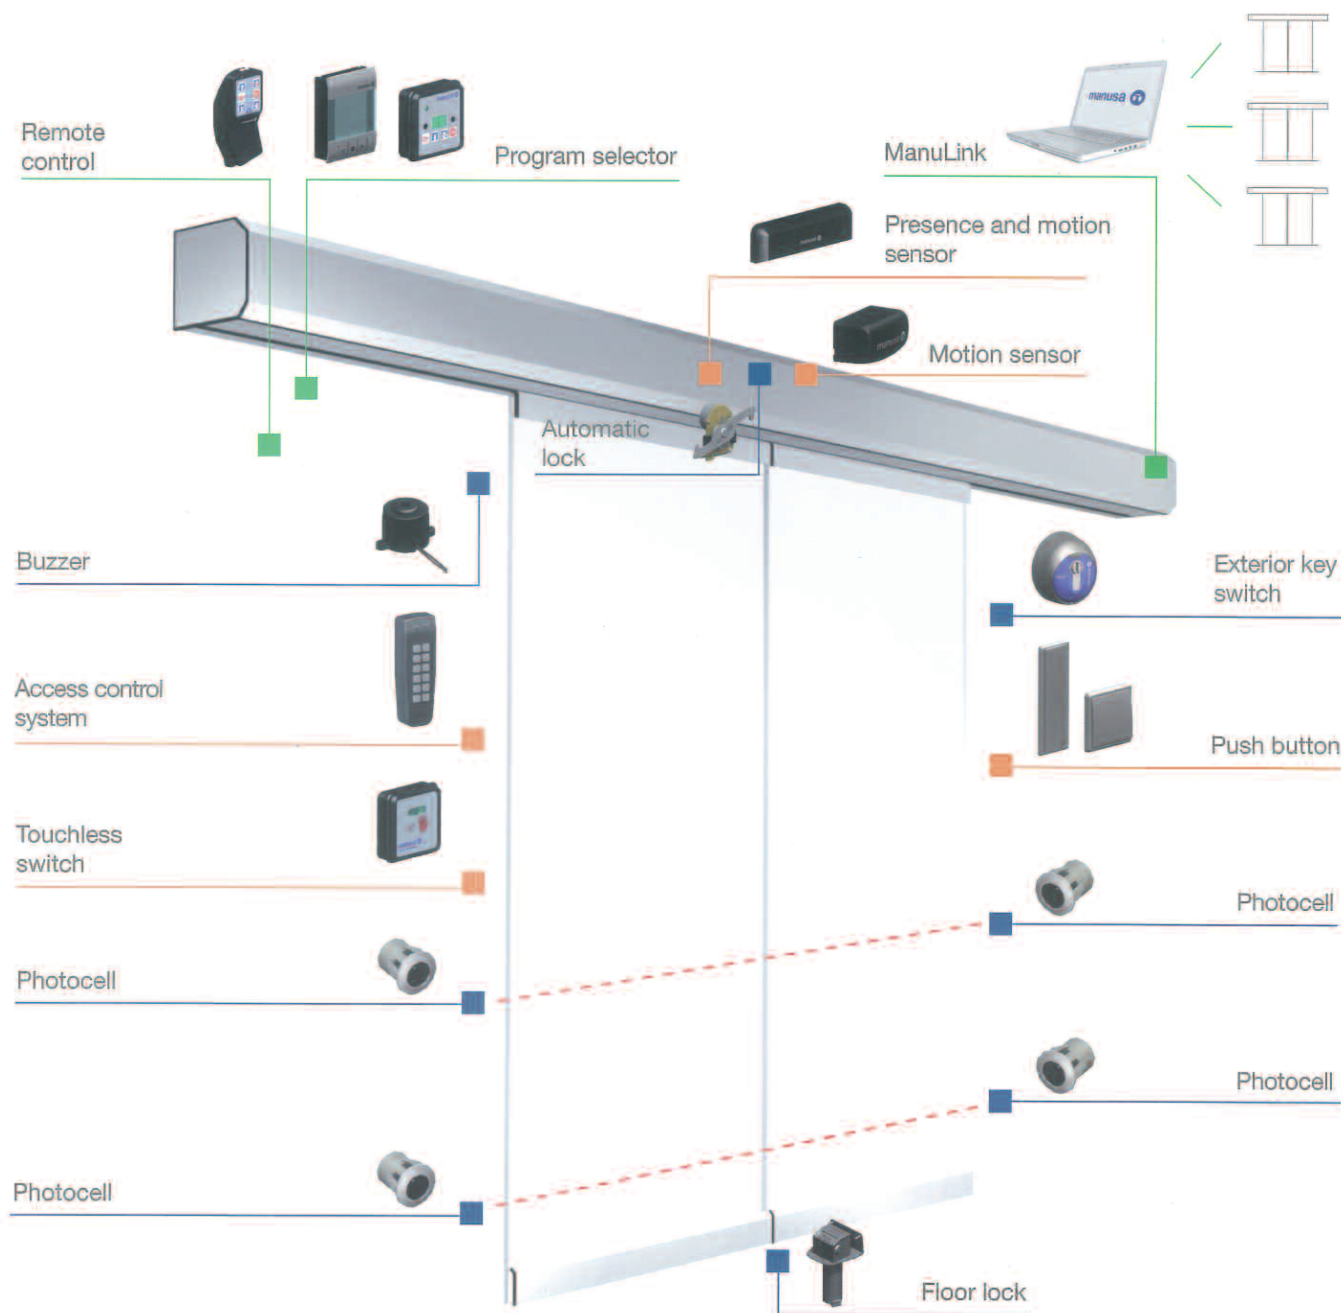

### Maintenance

All our products are manufactured to a very high specification. However, planned maintenance can ensure trouble free operation.

Our Service Department can advise on a suitable maintenance agreement.

# automatic entrance doors

■ **Activation accessories:** : cause the door to open and close to let people through.

■ **Control accessories:** allow the owner of the door to select and manage the operating mode of an automatic door according to specific needs.

■ **Security accessories:** give the automatic door the necessary security measures.

Others accessories available.  
Please consult our sales department with your requirements.

For any other size requirements, please contact our technical department.
